SPORTS EDITORIAL

The Everman "Bulldogs" started playing basketball long before the season officially opened. First they met with Mr. Ray, their sponsor, and elected J. R. Ketchum and Kenneth Wilson as captain and co-captain. Next they conditioned themselves by doing calisthenics and strenuous road work. Their first practice sessions were devoted principally to the review of fundamentals and rules; after that they played several matched games.

The conference was composed of Alvarado, Joshua, Godley, Burleson, Rio Vista, Mansfield, Venus, and Grandview. Our only defeats were suffered at the hands of Burleson, Godley, and Mansfield. Our percentage for the conference games was .67%.

Our tournament, which was held the 16th and 17th of February, was a huge success. The "Bulldogs" were defeated by Lake Worth who won the first place trophy.

The "Real McCoy" trophy was presented to J. R. Ketchum, the outstanding athlete of the year, by Mr. Pat McCoy, the donor.

The boys are also looking forward to a successful track season. Emmett Jenkins is training for the high-jump and dashes, and Kenneth Wilson is training for the weights and dashes. We will also have some fast boys on the relay team.

AS AMERICAN AS A HOT DOG

The hot dog is a familiar part of American life. Most of us take for granted that when we want one we can get it—almost anywhere. We can depend on the availability of the American hot dog in this country—it is part of the American scene—and we like it.

Electric service, too, is a familiar part of the American pattern. Can you imagine your home—or your work—without the convenience of electric service? Everyone takes the availability of electric service for granted. And you can take its economy for granted, too.

The savings of thousands of people are invested in the securities of Texas Electric Service Company. These savings bought power plants, electric power lines and other equipment—equipment that is operated by the men and women of Texas Electric Service Company to provide you with dependable, economical electric service.

Money, materials and man-power are joined under our American free enterprise system to bring economical electric service to you. This system is just as much a part of the American scene as the hot dog—it's the system which has given us Americans more of the many fine things which make us healthy, comfortable and strong—more than any other country in the world.
